OPPOSITION IN HAWAIIAN G. O. P.

(By Associated Press.)
HONOLULU, T. H., July 2 (By mail)—Prince Jonah Kaimukouale is expected to have opposition for re-election as Hawaii's delegate to congress. Kuhio is a Republican.
A three-cornered race is in prospect. The Democratic candidates to date are L. L. McCandless, millionaire sugar planter, and Dr. J. H. Raymond, a cattle rancher.
A third candidate to run on a non-partisan blank also is looming up with Joel C. Cohen, theatrical man as his candidate. Cohen has twice been defeated for mayor of Honolulu.

CIVIL WAR VETERAN RAISES A GARDEN

(By Associated Press.)
SALT LAKE CITY, Utah, July 17.—M. D. Corsor, past commander of department of Utah, G. A. R., still has the fighting spirit although he is considerably past the age specified for service in the United States army. Mr. Corsor is fighting the Kaiser with a war garden and he has been so successful that his plot has won second prize of this city's community war gardens.
Mr. Corsor is 75 years old but he planted and tilled a garden 175 feet by 65 feet this summer, and every vegetable in the plot has been found in an excellent state. At a flag raising over the garden recently, participated in by members of the G. A. R. and Relief Corps, Mr. Corsor said that he persistently sticks to the work as a war garden after it has been planted was to win a battle over shirking and that he was much pleased to have won a victory.

SHIDLER SENTENCE RUNS TWO YEARS

Al Shidler of Tonopah, who was found guilty on 4 counts of making seditious utterances, by a jury in the federal court a few days ago was sentenced to serve two years in the federal prison and pay \$100 fine by Judge Farrington of the United States district court at Carson City Monday afternoon.
On motion of United States Attorney Woodburn, Shidler was remanded to the custody of the marshal and will begin serving his sentence at once. He was given a two-year sentence on each of the four counts but the prison sentences are to run concurrently, making only a two-year sentence in all.
It is understood that the case will be taken to the United States supreme court.—Gazette.

SURVIVOR OF THE PERRY EXPEDITION

(By Associated Press.)
HONOLULU, T. H., July 3 (By mail)—The death here recently of Manuel Martins removed one of the Perry expedition to Japan. The then sole survivor, a sailor named Hardy of Portland, Ore., died a few days after. Following Martins' death cable dispatches from Tokio announced that news of his death was received in Japan with profound regret. A few years ago Martins was invited to Japan as the guest of the Japanese people but had to decline because of ill health.

The third week of the collections for the French-Belgian babies' milk bottles brought in the sum of \$37.25, making the total since the movement was started on June 10, \$129.15. In proportion to the population the contributions in Tonopah are far in excess of any other section of the country.

LIQUOR BOARD HOLDS AN OPEN SESSION

The Nye county liquor board will hold an open session tomorrow afternoon for the purpose of hearing expression from citizens on the ordinances regulating saloons suggested by the Nye County Council of Defense. The time was set for this afternoon but, owing to the many protests received the board thought it would be better to defer action until after hearing from the men whose business will be affected or those who wish to be heard on the subject.

With returns from Elko, White Pine and Washoe counties incomplete and other counties in the state still working towards their quotas in the war stamp drive the state has so far pledged or purchased \$1,475,674 worth of war savings stamps or thrift stamps according to reports compiled by the state war stamp office. Churchill, Washoe and White Pine counties are the only counties in the state that have exceeded their quotas.

INCOME TAX INQUIRY

Justus Wardell, collector of internal revenue for California and Nevada, has ordered his deputies to begin investigating reports of income tax returns with the object of ascertaining slackers. In this work the collector invites the assistance of all citizens who are assured that their names will be held inviolate and all information strictly confidential.

Long Leaves Are Most Economical

A loaf weighing one pound contains 11 per cent of water if it is round and only 34 per cent if it is cylindrical. Therefore, she who buys long loaves gets 140 grammes more actual food for her money than she who buys round loaves.

The reason for this is that the sphere is the figure that contains the largest possible volume under the smallest possible surface, and as evaporation is a matter of surface, this is greater from a cylinder than it is from a sphere of the same weight.

Where Thomas Yals Rests

In the new American army there are many officers whose alma mater is Yale college, and some of them regard Wrexham, in North Wales, as a place of almost personal interest. For it is there that Thomas Yals, who inaugurated the great sent of American learning, was buried, and it is interesting to recall that in the early nineties a root of ivy from his grave was sent to Professor Phelps, formerly the American minister in London, to plant against the college building.—London Chronicle.

There was a prohibitory law in Massachusetts from 1863 to 1876.

SWIMMING PARTY ENDS WITH DINNER

Recently an innovation in the form of local entertainments was observed by the steadily increasing attendance at the swimming pool, beginning with daylight plunges concluding with breakfast served on the adjacent hillside. Now the practice has extended to the evenings with full dinner parties making engagements. Last evening five auto loads of bathers enjoyed themselves in the pool and the male members of the club followed with a twilight game of ball and, just as the sun was declining in its glorious panoply of color a complete dinner was served. Those present were: Mr. and Mrs. Roy McDonald, Mr. and Mrs. John McLeod, Mr. and Mrs. Wood and children, Mr. and Mrs. Shively, Mr. and Mrs. George Wilkins and children, Mrs. Champlain, Mr. and Mrs. D. C. Ryckman, Miss Guenodil McLeod, Master Murdock McLeod and Mrs. H. L. Grafous and children.

WILL BE OUT OF BED IN FEW DAYS

John H. Smith, auditor of the Louisiana Consolidated Mining company, with headquarters at Tybo, and Ray Harris, of the same company, are confined in the Mine Operators' hospital suffering from a severe jolting they received while going out to Tybo from Tonopah. In working through a sand bank one of the steering rods of the car broke suddenly causing the machine to upset and throwing both occupants some distance in the roadway. At first it was supposed Smith had received injuries to the spine but an examination disclosed that he had nothing more than bruises and lacerations. Harris wrenched his left leg, but otherwise escaped harm. Smith will be out in a few days.

JACK PECK RECEIVES CONGRATULATIONS

Jack Peck, agent of the Tonopah & Goldfield railroad, was the subject of many congratulations this morning when he came down town after being introduced to a young lady who arrived at his home last evening. Mother and daughter are doing nicely.

100 MEN FROM NEVADA

Adjutant General Sullivan is in receipt of war orders to the effect that Nevada will have to furnish 100 more men. This quota is to be filled by August 5th. The new quota goes to Camp Fremont, Cal. The details of the new draft will be worked out in the next few days when the county boards will be advised of the quota required from each county. The call for men is coming pretty thick and fast, as 300 men leave for Fort Riley on the 22nd and 23rd of this month.

AMUSEMENTS

SEVEN-REEL FEATURE TODAY

Francis X. Bushman and Beverly Bayne are co-starred in the seven-reel feature, "Their Compact," which will be the attraction at the Butler today. "Their Compact" is a mining story. The life of "Silverville" is graphically shown. Mr. Bushman plays the role of a New Yorker who goes west to take care of his mining properties. He is a man of his word—never fails to keep his promise. There are some wonderful fights in this picture, and who can put up a better one than Bushman. There is adventure, excitement, peril, and finally the sun shining after the storm. It is one of the most gripping, vital, forceful photodramas ever screened, a worthy vehicle for these two superb stars. In addition to this seven-reel feature, the latest Pathe News with all the important war news, will be shown. The next show will be on Saturday.

SAM NEWHOUSE IS HEAD OF TYBO CO.

Private advices from New York state that at a special meeting held yesterday Samuel Newhouse, the Utah mining magnate, was elected president of the Louisiana Consolidated Mining company. The first step of the new executive was to approve an issue of \$250,000 first mortgage bonds, the full amount of which was subscribed on the spot. It is proposed to place the company in an invincible financial position by supplying ample funds to carry out the plans of the new management and to develop the potentialities of the property which Mr. Newhouse said, was the finest lead-silver showing he had ever examined. The plans contemplate sinking the main shaft to a depth of 1000 feet.

KNITTING DONE BY POWER EMPLOYEES

(By Associated Press.)
SALT LAKE CITY, July 17.—Employees of the Utah Power and Light company at the substation in this city have hit upon the novel scheme to assist the Red Cross. Realizing that they had some spare time and much patriotism and feeling that they should do more in the battle for democracy, they subscribed to a fund and purchased an electric knitting machine.

The power used costs them nothing, the yarn comes from Red Cross headquarters and they are now sending to Red Cross headquarters an average of nearly one hundred and fifteen pairs of socks a week and are attempting to beat the record.
